

Bicycles and e-bicycles, built to your drawing.

Export contract manufacturing in Ludhiana, India. Your brand, your specification, your carton. **Export only — we do not sell under our own name in your market.** The line is being specified now and is not yet commissioned; every figure below is a plan or a design target, and the status of each is stated.

1 What we make.

ITEM 1.0 · SPEC REV A

ITEM 1.1 Frame & assembly Jig-welded steel and aluminium. One platform carries both products — ~60% of an e-bicycle's BOM is a bicycle. Alignment specified to ±0.5 mm, measured every batch.	ITEM 1.2 E-bicycle integration 250 W pedal-assist. Motor, controller, harness and pack integration, specified to EN 15194. Cells, motors and controllers bought in.	ITEM 1.3 Finish & packing Powder coat, decals, 85% pre-assembly, retail-ready cartons to your artwork.

2 What we will not make.

ITEM 2.0 · PERMANENT

× No carbon fibre.	× No suspension manufacture — we fit what you specify.
× No cells, motors or controllers — bought in, auditable.	× No CMVR-registered vehicles — nothing above 250 W / 25 km/h.
× No own-brand sales in your market. Contractual, not aspirational.	

3 Capacity plan and terms.
